

| No.               | Name                               | Model                        | Number | Place of Production |
|-------------------|------------------------------------|------------------------------|--------|---------------------|
| 28                | plane precision grinding machine   | 7140 (1000*400*310 mm)       | 1      | china               |
| 29                | precision grinding machine         | FGS (500*300*300 mm)         | 1      | Taiwan              |
| 30                | Precision milling machine          | KTM-4H (800*500*400 mm)      | 1      | Taiwan              |
| 31                | Precision milling machine          | KTM-4H (800*500*400 mm)      | 1      | Taiwan              |
| 32                | Precision milling machine          | KTM-4H (800*500*400 mm)      | 1      | Taiwan              |
| 33                | universal milling machine          | X63 (700*400*300 mm)         | 1      | china               |
| 34                | universal milling machine          | X63 (1250*400*300 mm)        | 1      | china               |
| 35                | drill press                        | Z3080 (2500*1200 mm)         | 1      | china               |
| 36                | drill press                        | Z3050 (1600*1000 mm)         | 1      | china               |
| 37                | Lathe                              | 7132 (∅360*1000*200mm)       | 1      | china               |
| 38                | NC linear cutting machine          | DK (620*1000*600 mm)         | 1      | china               |
| 39                | NC linear cutting machine          | DK (620*1000*600 mm)         | 1      | china               |
| 40                | NC linear cutting machine          | DK (620*1000*600 mm)         | 1      | china               |
| 41                | NC linear cutting machine          | DK (620*1000*600 mm)         | 1      | china               |
| 42                | NC linear cutting machine          | DK7740 (400*500*400 mm)      | 1      | china               |
| 43                | NC linear cutting machine          | DK7740 (400*500*400 mm)      | 1      | china               |
| 44                | Three-Coordinate measuring machine | Image15221∅1 (2200*1500 mm)  | 1      | America             |
| 45                | Gas injection machine              | CGI-PPC FX-X                 | 2      | Hongkong            |
| 46                | Mould temperature controller       | Mould temperature controller | 2      | Taiwan              |
| Will be purchased |                                    |                              |        |                     |
| 1                 | EDM                                | EDNC157(S) (2000×1000mm)     | 1      | Japan MAKINO        |
| 2                 | Graphite milling machine           |                              | 1      | Taiwan              |
| 3                 | CNC                                |                              | 1      | Japan               |

Daxiong .Zhuhai--the 30,000 square metres of modern industrial plant are planning to build.....
